

INVESTMENT OPPORTUNITY

**HIGH POTENTIAL
LITHIUM LAND IN
CATAMARCA,
ARGENTINA**

EXECUTIVE SUMMARY

Argentina provides a favorable legal and regulatory framework for foreign investors in the mining sector.

Lithosur presents an exceptional opportunity to acquire over 7,600 hectares of lithium-rich land located in the province of Catamarca, Argentina—at the heart of the globally renowned **Lithium Triangle**. This strategic area holds over 50% of the world's lithium reserves and continues to attract significant international investment.

All properties are free of liens and ready for transfer. Legal documentation is available upon request, including title deeds and surface rights. This is a unique opportunity to participate in the growing global demand for lithium, driven by the acceleration of electric vehicle production and the shift toward renewable energy storage.

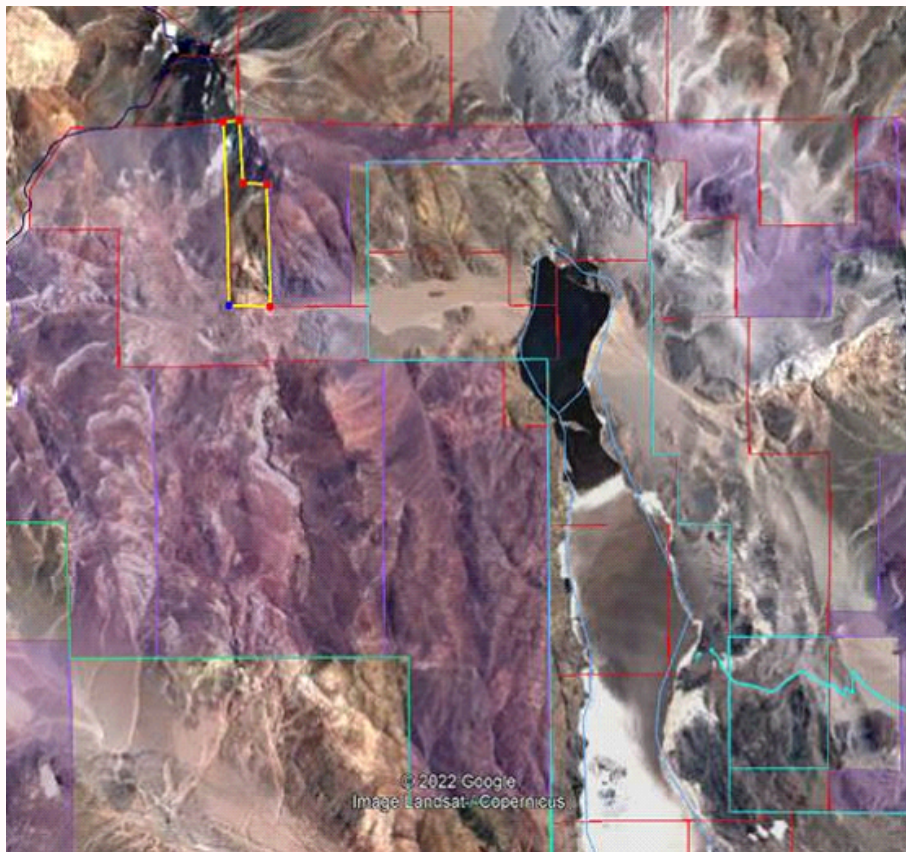

PROPERTIES OVERVIEW

Each property is certified with an official resolution issued by the Ministry of Mining of Catamarca.
